Port Charges

The Chatham Islands relies on shipping for essential resources, like diesel for the electricity grid and fuel for air services.

The main port is at Waitangi and features:

- a 163-metre breakwater made of 4000 interlocking concrete blocks, designed to protect the wharf from the impact of incoming waves
- 10,700 square metres of port area
- a 90-metre long cargo wharf
- a 35 metre fishermen's wharf
- water tanks for 100 cattle.
